The 10,200' Sand, Reservoir A, in the Barnes Creek Field, Allen Parish, Louisiana, was fully defined in Office of Conservation Order No. 1228-C, effective November 30, 1999.

The proposed alternate unit well will permit efficient and economic recovery of hydrocarbons underlying the unit, will cause no harm to offset owners, and is needed to satisfy the market demand for gas and condensate from the field.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, such list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Represented Parties and Interested Parties.

Finally, enclosed herewith is our check on behalf of the applicant in the amount of \$755.00 made payable to the Office of Conservation representing the required hearing application fee.

Very truly yours,
